

Dahlem, September 14th 1926
Gosslerstr. 20.

To the

President of the Academia Chilena de Ciencias
Naturales,

S a n t i a g o

My dear Mr. President,

It was with the greatest pleasure, that I have got your document from July 8th showing me, that your Academy has selected me as corresponding member. I beg to accept my heartiest thanks for this great honour and please give these feelings also to the other members of your academy. Always I shall do my best to do what ever I can for the natural sciences of your country, in what I have spent a little time just about 25 years ago, a short time, what I shall never forget.

It gives me a great pleasure to forward to you to-day a copy of my work on the genera of Cicindelidae as 2 registered printed matters. Please accept it as a little sign of my feelings.

Yours ever

Walth. Horn
Director
